

# How to Create Free Cloud Promotion Account

As you know We are just talking about Oracle Cloud Gen2 those days. But how you can get details about Gen2 or how you can get some play area in Oracle Cloud.

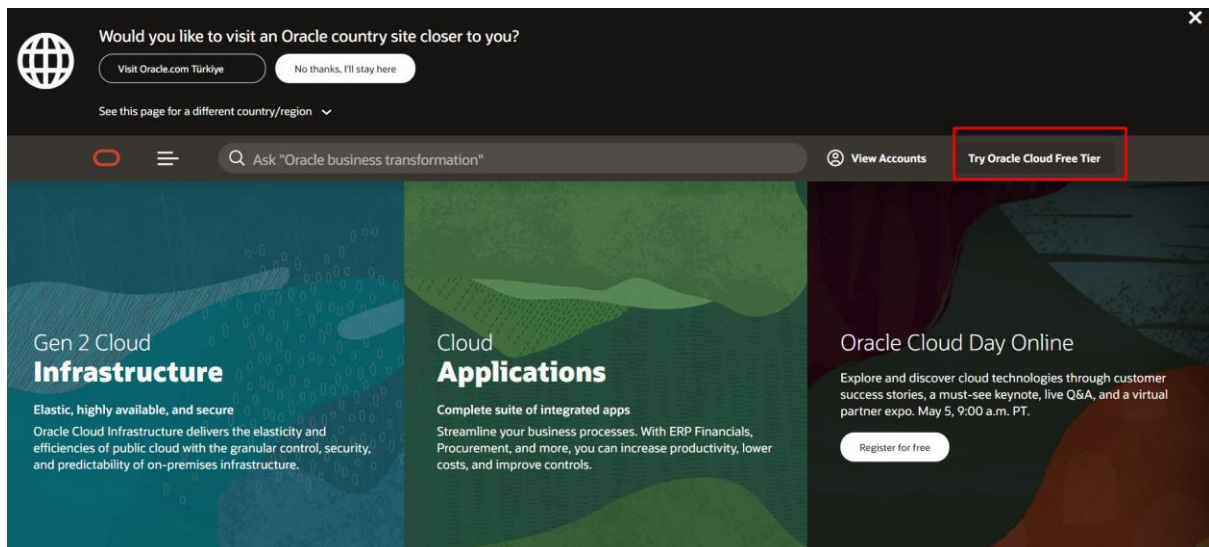

In this post I try to explain those steps. Here We go

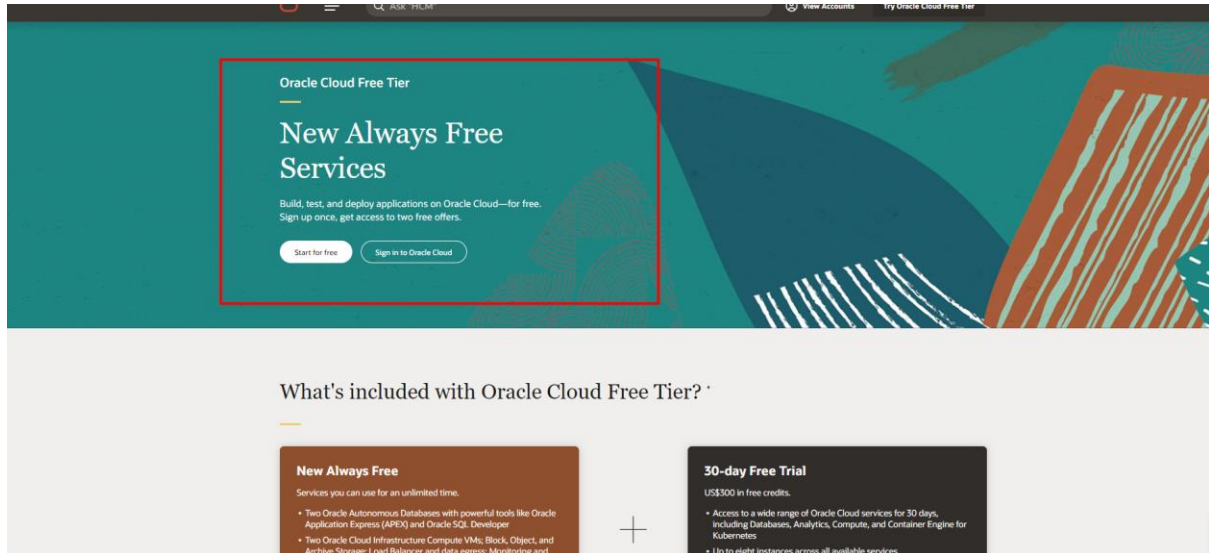

First You need to create an Oracle Cloud account. If you dont have one already then you neet to create account and get a welcome email from Oracle.

It may tooks 2 days or less.

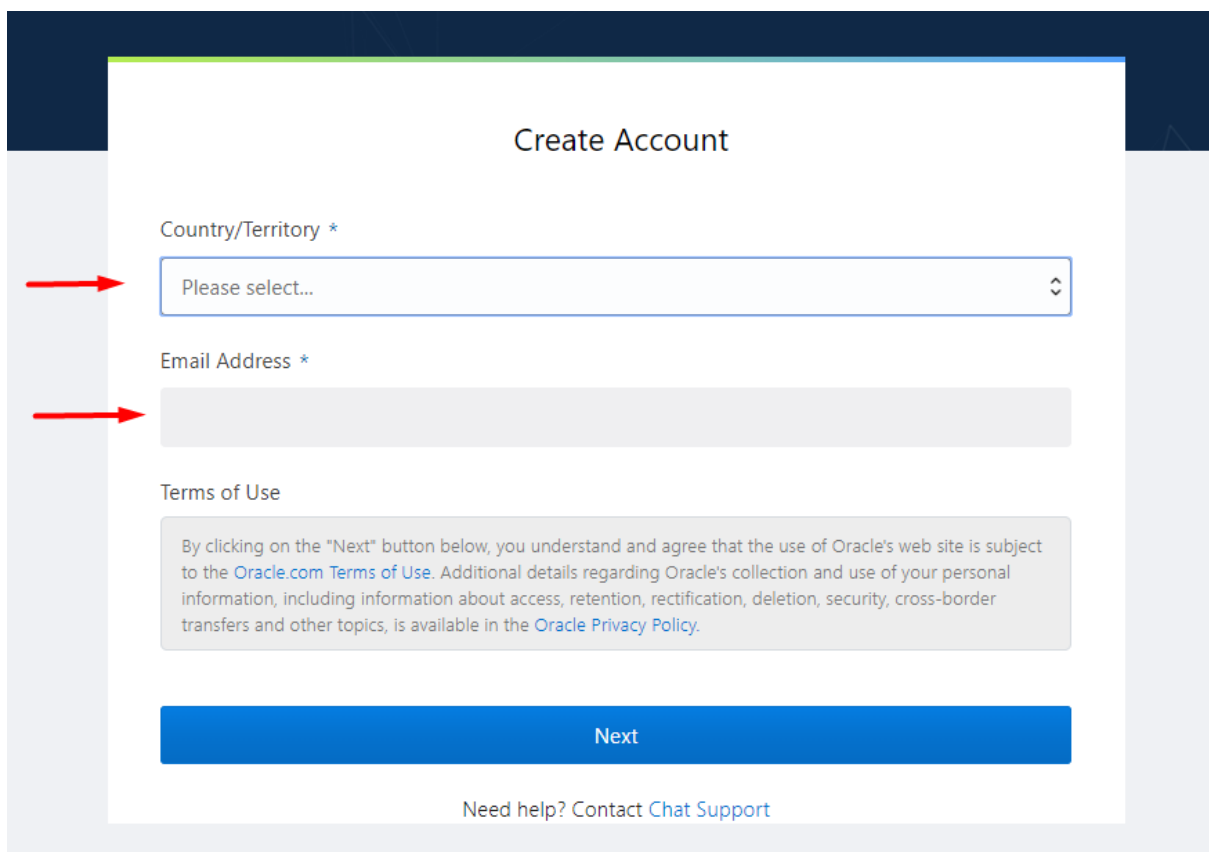

1-Go to the Oracle Cloud website. <https://www.oracle.com/index.html>

2- Click Oracle Cloud Free Tier, and then click Start for free button

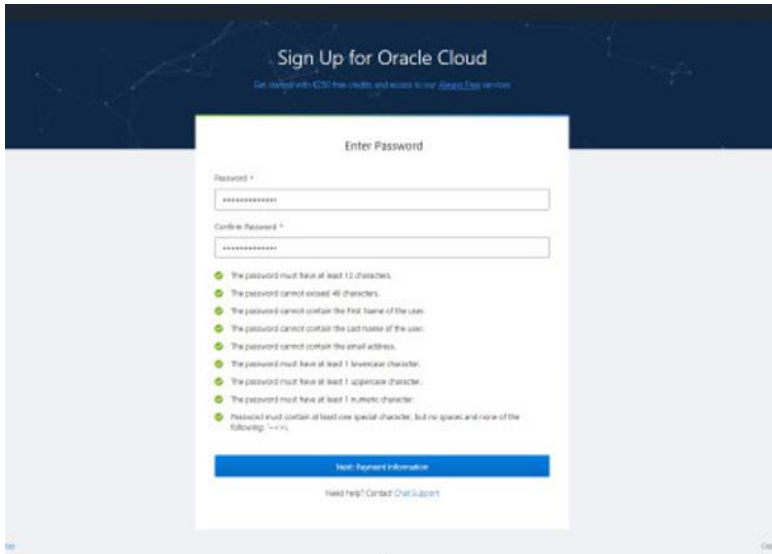

3- In next screen Fill the Sign Up for Free Oracle Cloud Promotion form Provide a valid email address. In this screen DO NOT USE fake email

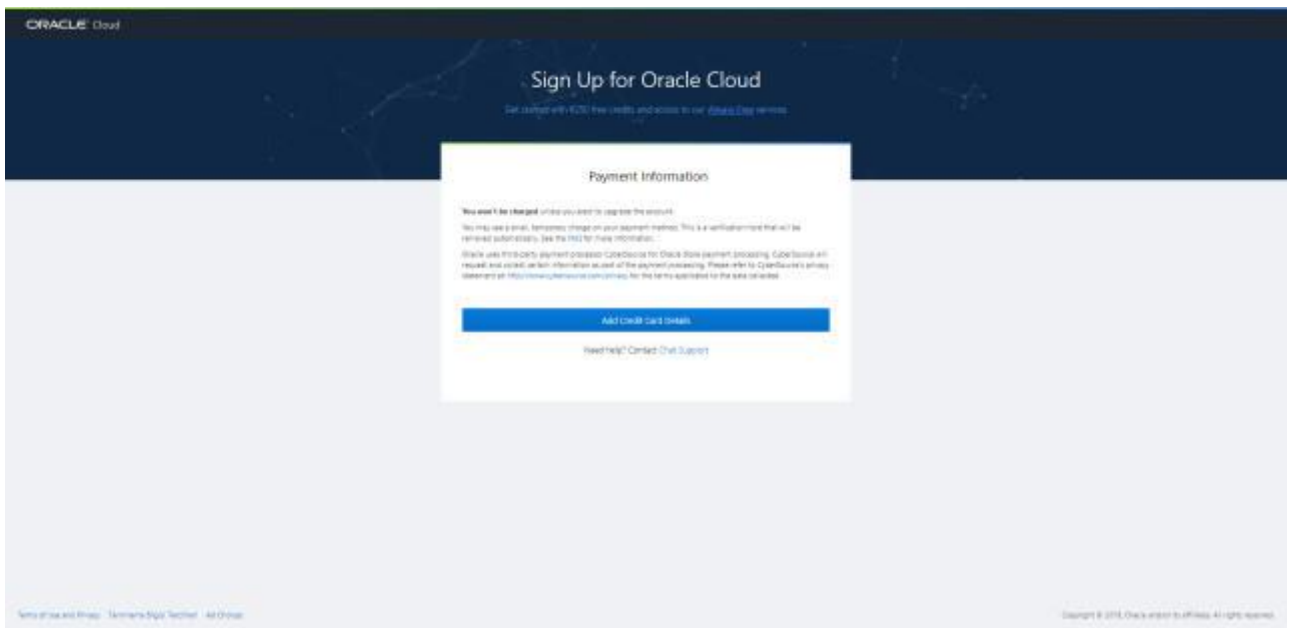

4-Create a cloud account name and then Select a Home Region. Region area will be host your cloude service. Please fill all related area in forms and please DO NOT USE Fake phone number,adress etc.

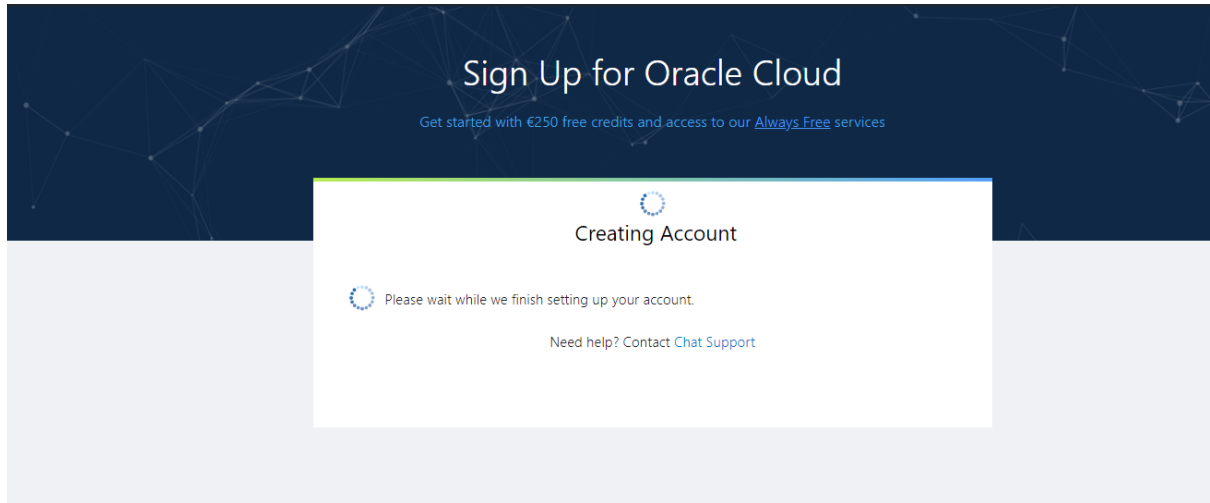

5- Create Password for your account.

6- Payment information. In this part you need to provide your credit card; it was only used for verification and will not be charged unless you upgrade to a paid account.

7- Accept the terms and conditions, and then click Complete Sign-Up to submit your request for a new Oracle Cloud account.

8-After your account created. You will get below page.As you can see from the page your account will be created in 15 min and you will get a email from Oracle.
